

ARNOLD RAMODIKE

Junior Developer

Developer with over three years of experience managing multiple website and web application design projects. Adept at developing creative and functional designs, web page layouts, color schemes, and infrastructure to maintain a cohesive website consistent with clients' needs.

EXPERIENCE

Singular Systems

Junior Developer

March 2021 – March 2023

- Managed 10+ web design projects from start to finish using HTML5, JavaScript, and CSS3 with 100% client satisfaction.
- Designed and developed a user-friendly website, including an optimized check-out page that increased user clicks, and subsequently customer purchases by 15%.
- Collaborating with graphic designers to translate visual concepts into functional web designs, ensuring a cohesive and visually appealing user experience.
- Fixed bugs from existing websites and implemented enhancements that improved functionality and efficiency by 25%.

Unitec Solution

Trainee

March 2020 – March 2021

- Revamped web application security applications, minimizing hacker attacks from 2% to 0.03%.
- Designed and allocated interactive flyers and ads on the site for upcoming promotions and events, increasing site visits by 25%.
- Redesigned 3 websites for ecommerce brands using a content management system, driving UX results by 20% and customer retention rate by 10%.
- Conduct website testing and debugging to identify and resolve issues, ensuring optimal performance across different browsers and devices.

PROJECTS

- **riccoR:** Created a responsive e-commerce website using ReactJS, MongoDB, and NodeJS allowing users to browse products and add items to cart, and complete secure payments.
- **Modular App:** Developed a web application for creating, assigning, tracking and managing project tasks using AngularJS, resulting in improved team collaboration and productivity.
- **CMS:** Created a data visualization dashboard to provide real-time insights. Created intuitive admin interfaces for downloading and managing content.
